1 DAY OF Feb, 2001  
CARL A. HOLL  
PATENT ATTORNEY

Sir:

Please amend the above-identified application as follows:

IN THE CLAIMS

Please insert new claims 2-33 as follows:

2. A power machine having an engine and an attachment connected thereto, the power machine comprising:
- a first input device positioned outside a cab portion of the power machine, the first input device including a first plurality of input mechanisms for controlling the attachment, wherein the first input device further includes a first engine start mechanism for starting the engine;
  - a second input device positioned inside the cab portion of the power machine, the second input device including a second plurality of input mechanisms for controlling the attachment, wherein the second input device further includes a second engine start mechanism for starting the engine; and
